February 12, 1937.

TO THE TAXPAYERS OF BETHLEHEM:

In submitting this report to you we wish to call your attention to several items.

Last Spring there was serious damage done to our town roads by the March flood, and this damage has been repaired without extreme cost to the town.

One of the most damaged roads was the "Maplewood Hill" and this has been practically rebuilt.

On figures given by the Highway department, flood expenditures were made as follows:

Town of Bethlehem	-	-	-	\$3,944.05
W. P. A. Funds	-	-	-	3,536.79
State of New Hampshire	-	-		900.91

Much of the flood damage expense has been included in the regular Pay Rolls of the road agents.

During the summer W. P. A. Funds were expended in town, for the eradication of White Pine Blister, to the amount of \$1,307.90 and funds from the same source were received to help repair damages to the water system.

During October the State Tax Commission made an audit of the books of the town and found same properly balanced.

Several recommendations were made by this Commission relative to Tax Deeds and Tax Sales, and these have been completed.

Recommendation was made regarding refinancing the loans made the Water Department and this is still under consideration.

There was also approximately \$900.00 spent on a new Base Ball Field and Amusement Park for which there was no appropriation.

Notwithstanding these expenditures the town debt has been decreased \$6,483.25, and temporary loans reduced to the extent of approximately \$40,000.00.

The attention of the Selectmen has been directed to the State Laws regarding the Rate of Interest required by that law to be assessed on unpaid taxes and they are directed to adhere to that law.

Signed:

SELECTMEN OF BETHLEHEM.

REPORT OF BOARD OF EDUCATION

To the Citizens of Bethlehem:

The school board herewith submits its annual report. The report includes the treasurer's report for the fiscal year July 1, 1935 to June 30, 1936 with an itemized statement of expenditures; budget for the present school year and for next year; estimated receipts; and written reports by the superintendent of schools and by the headmaster of the high school.

We recommend that the school district raise the sum of \$29,000.00 for the support of schools for the year beginning July 1, 1937. This amount will not be sufficient to close the year June 30, 1938 without a deficit, but seems a wise appropriation at this time.

Respectfully submitted,

Bessie A. Coney
J. Elmer Harrington
Bernard Harvey
Mabel F. Harrigan
Anne Wolcott
Raymond C. Brooks

Support of Schools includes all instructional expense, maintenance of school building, health, transportation, and other special activities.

General Expenses include administration, per capita tax, insurance, and new equipment.

Debt and Interest include the bonds and interest on the new building.

Per Pupil Cost-Total is found by dividing the total payments by the average membership.

Per Pupil Cost-Current Costs—is found by dividing the payments after the deduction of debt and interest charges by the average membership.

Superintendent's Report

To the School Board:

I herewith submit the annual report relative to your schools.

The enrollment by grades this year is as follows:

Grade	I	II	III	IV	V	VI	VII	VIII
	18	19	12	25	18	18	21	17
	IX	X	XI	XII	Total			
	17	12	13	14	204			

The enrollment last year was 239 and the average membership 200. This year the average membership will be about 190. The high school membership seems to be more stable than that in the elementary grades. This year 56 pupils are enrolled in the senior high school and 55 are now in attendance.

The fact that the loss of pupils in the senior high school, other than for families moving from town, has been practically negligible for the past few years is a real tribute to Headmaster Cummings and his teachers. While it is true that but little opportunity for work outside of school has been offered boys and girls of high school age during recent years, the holding power of your high school has been evidenced by the excellent attendance and effort of your pupils. This situation can prevail only when the program, instruction and leadership merit their approval. I have found the high school pupils interested in their classroom work and in all of the school activities. The spirit of the school is of a high quality. The report of the high school agent from the State Board of Education has for several years been decidedly complimentary to your staff of teachers.

Three changes have occurred in your teaching staff during the past year. During the summer Miss Lyttle, Miss Britton and Miss Kennedy resigned to accept positions elsewhere. Miss Anne Eaton, a graduate of Keene Normal School with five years of experience in Charlestown, was secured for the first and second grades. Mrs. Nora Tomes, a graduate of Worcester Normal School with ten years of experience, was secured for the third and fourth grades. Miss Isabel Hunt, a graduate of the commercial course at Plymouth Normal School with one year's experience at Epping, was selected for the high school vacancy. All of these teachers are doing good work in their positions. The other teachers are continuing their excellent work of preceding years. Mr. Cummings, Miss Smith, Miss Tewksbury and Miss Caswell have been teachers of your pupils for five years or more. In classroom teaching, in directing school activities and in personal leadership they have merited your respect and your confidence.

The program of studies is the same as for last year. The sewing instruction for girls in the seventh and eighth grades is being continued. This instruction is of undoubted value to the girls in these grades. Woodworking would be just as valuable to the boys in the junior high school. The introduction of courses in woodworking would involve some expense for benches and tools and perhaps the services of a part time teacher. If courses in Home Economics for girls and Mechanic Arts for boys were extended into the senior high school additional teacher time would be required. With the present tax burden in Bethlehem the introduction of these practical arts courses must probably be delayed but it should be a subject for future consideration if your high school is to offer the most practical courses to your pupils.

You have provided for medical inspection of all pupils once each year and for frequent health inspection by the district nurse of Littleton. This service costs the district about \$250.00 a year. Miss Bryant and Dr. Page show a keen interest in all health problems. Miss Bryant visits the school often and consults with Dr. Page relative to clinics and special cases. For several years she has arranged for a tag day to raise money for dentistry, for providing glasses for pupils, and for throat

operations for the pupils in Littleton and Bethlehem. Interested persons and organizations have made contributions to the fund. A study of health statistics over a period of years shows that good results have been attained. About twenty first grade pupils enter your school each year and quite a number of others enter higher grades from out of town. Many of these pupils have not had previous corrective work. Dentistry is a recurring need. To eliminate all ailments is of course impossible. To apply corrective treatment to all cases has been impossible with the limited funds available. Whether the school district should contribute more money for health work is a topic worthy of consideration. In addition to the above mentioned ailments most commonly discovered, many pupils are found underweight. This year the number of pupils 10% underweight is the largest for several years. Federal funds have been available for milk and for noon lunches as part of the New Deal program for the past two or three years. The money from the federal government plus some from individual contributions has been supplemented by the school district money to provide a hot cup of cocoa or soup at the noon meal. This year no federal money is available. The school board has authorized the provision for the noon lunch during January, February and March for underweight pupils whose parents cannot afford to pay for same. No money has been available for milk. The milk has probably been a very important factor in the restoration of underweight children to normal weight and consequently in their resistance to disease.

In accordance with the vote of the last district meetings two stokers (Electric Furnace Man) have been installed in connection with the heating equipment. The total cost of installation and of connecting the hot water with the furnace was \$1,207.45. The saving in cost of fuel, as a result of this installation cannot be predicted accurately. There will probably be some saving in cost over a period of years, and considerable saving in labor. The cost of the stoker, \$1,100.00, was paid from last year's funds. The deficit on June 30 was about \$2,400.00. The balance sheet shows a balance of \$500.32 and an advance from the town treasurer of \$2,900.00 from the present year's appropriation. This year will close, June 30, with a deficit of about \$1,200.00. The budget for next year

totals \$29,325.00. Adding the deficit of \$1,200.00 the total sum to provide for is \$30,525.00. While we cannot predict accurately the receipts from sources other than taxation (dog licenses and National Forest Reserve Fund) the average amount for the last five years has been slightly over \$400.00. An appropriation of \$30,000.00 would enable you to close the school year in June 1938 with bills paid. An appropriation of \$29,000.00 will leave a deficit of several hundred dollars.

The school district bonds are now reduced to \$75,000.00. The interest decreases \$200.00 each year. The building apparently is large enough for many years. The school population in Bethlehem is not growing at present. The present school costs cannot be materially decreased with the population remaining stable. They need not be increased unless your program of studies is made more varied and your costs for equipment and instruction consequently increased. That even would not increase the cost in large percentage.

Last summer the exterior of the building, the interior of the classrooms on the first floor and part of the auditorium were painted. The W. P. A. street project in front of the building provided some fill for the lower part of the school grounds. If more material could be dumped there and the entire grounds back of the building made more level, the pupils would have a good playground for baseball and other out-door sports. Some playground equipment such as swings and teeter boards would make more attractive the use of the playground in good weather. The playground is barren at present, and the old stone wall and bushes are not attractive. The wall would help to fill the low places and a strong wire fence in its place would be more sightly. Bleachers should be built for the gymnasium.

The auditorium has a fire proof projection booth but no equipment. As soon as finances permit motion picture equipment should be installed. Visual instruction is an important part of education today. Many educational films closely related to the subject matter of geography, history, English, health, safety and the sciences are available. Many school

systems also have radio equipment in their classrooms. This will probably be recognized as a need in Bethlehem in a few years.

Parents and townspeople have cooperated with school officials and teachers in a marked degree to make your schools efficient. I have the highest praise for the splendid school spirit in evidence.

Respectfully submitted,

DANA S. JORDAN.

Headmaster's Report

To the Superintendent of Schools:

I herewith submit my annual report and summary of work. The total enrollment for the present year is fifty six. There are seventeen Freshmen, twelve Sophomores, thirteen Juniors and fourteen Seniors.

Fourteen pupils are enrolled in Foreign Language courses, thirty in commerce, thirty three in Natural Science, thirty in Mathematics and thirty five in Social Science.

The percentage of attendance to date is 96.4. The number of instances of tardiness is 34.

Graduates from high school are registered at the following post-secondary institutions: University of New Hampshire 5, Keene Normal School 4, Bates College 1, Syracuse University 1, Northampton Commercial College 1, Bay Path 1, Northeastern University 1.

Our extra curricular activities, with the number participating in each are, since my last report: Golf 12, Basketball 33, Forensics 8, Dramatics 14, Baseball 14, Glee Club 38, Winter Sports 24.

Each teacher in the high school is responsible for extra curricular work during the year as follows:

Headmaster Cummings: Golf, Basketball, Baseball.

Miss Grace Smith: Dramatics, Prize Speaking, Graduation parts.

Miss Caroline Tewksbury: Girls' gymnasium, Girls' Basketball.

Miss Isabel Hunt: The school paper.

Due to ill health Miss Tewksbury has been relieved of coaching duties. This work is being carried on by Miss Margaret Coney and Miss Dorothy Johnston, former graduates of the school.

The citizens of Bethlehem should be proud of the opportunities afforded its pupils through the medium of its school. Few schools of its

size offer a more varied program in curricular or extra curricular work and reports from colleges indicate that satisfactory progress is being made by your pupils in those institutions.

Our program of studies includes courses in English, French, Mathematics, Chemistry, Physics, Biology, Physiography, United States History, Modern European History and History of Civilization sufficient to prepare pupils for college work and at the same time adapted to the needs of those pupils who do not go on to higher institutions. The Commercial course is adapted to give elementary training in the field of business.

In closing, I wish to express my appreciation to the school board, the superintendent of schools, the teachers, pupils and citizens of the community for their hearty cooperation throughout the past year.

Respectfully submitted,

LESLIE S. CUMMINGS,
Headmaster.
